

RICHMOND, VA

Warehousing

Spring 2025

As part of our mission, Red River Foods strives to source the highest quality foods while improving our global supply chain. To this end, we have a state-of-the-art refrigerated warehousing facility in Central Virginia. We can guarantee unrivaled quality - all the way from product origin to your door.

Our facility enables Red River Foods to ensure that our product's entire supply chain is executed to the highest standard possible. The Richmond location provides proximity to the Richmond Marine Terminal and Richmond International Airport. Red River Foods' corporate offices are also located on-site. Direct access to I-95 makes this the perfect East Coast hub, whether serving the Northeast, Southeast, or Midwest.

Physical Space

- Bulk Box Packing
- Bulk Supersack Packing
- Roasting
- Pasteurizing
- Turn Key Fulfillment
- Organic Certification
- BRC Certification

RICHMOND, VA WAREHOUSE

Short Term 3PL Services

Defining Your Needs

Short Term 3PL Services

Short-term 3PL storage is a flexible stop-gap solution offered by warehouses for sellers facing supply chain delays. While the goal is to get products to customers, unexpected holdups can leave shipments on hold. That's where Red River Foods' warehouse can help.

Temporary Warehouse Storage

Temporary warehouse storage refers to holding products for as little as one day up to 90 days. Anything beyond 90 days is typically considered long-term storage, with little options for mid-term storage in between these timeframes.

How it Works

Short Term Storage services vary based on the 3PL provider. Warehouses use several variables when calculating short-term storage rates.:

- Storage Time Requested
- Dates Product is Received and Released
- Warehouse capacity
- Carton Dimensions
- Pallet Dimensions
- Inventory Quantity
